## INTRODUCTION

### Commission on State Mandates

Article XIII B, section 6 of the California Constitution was approved in 1979 to require the state to reimburse local agencies and school districts for increased costs mandated by the state resulting from new statutes or executive orders passed by the California State Legislature, the Governor, or a state agency. To implement article XIII B, section 6, the Legislature created the Commission on State Mandates (Commission) to succeed the State Board of Control in making determinations whether new statutes or executive orders are state-mandated programs.<sup>1</sup> The Commission is also authorized to hear claims from local agencies and school districts that the State Controller has incorrectly reduced reimbursement claims.<sup>2</sup>

### Commission Workload

The Commission's workload is backlogged, due to budget reductions and statutes that imposed new program requirements upon the Commission. In 2005, the Commission estimated it would take approximately seven years to complete its pending workload. As a result, the Commission was provided with three limited-term positions and one permanent position to eliminate its workload. The 2006 State Budget Act converted the Commission's limited-term positions to permanent status, and required the Commission to annually report to the Department of Finance on the status of its workload and backlog.

### Report to Department of Finance

The 2006 State Budget Act states:<sup>3</sup>

The Commission on State Mandates shall, on or before September 15, 2006, and annually thereafter, submit to the Director of Finance a report identifying the workload levels and any backlog for the staff of the commission.

Following are tables identifying the Commission's overall pending workload, including separate tables showing test claim and incorrect reduction claim workload. The report also includes tables that show the Commission's elimination of workload during the past six years.<sup>4</sup>
